EXPERIENCE

ASSOCIATE ML ENGINEER

Aug 2024 - Current

Clarivate

Noida, UP

- Working in the development team to build an ML based application utilizing AWS Services, LLMs and Generative AI within the Intellectual Property domain

DATA ANALYTICS INTERN

Feb 2024 - Aug 2024

Skillsify Digital Marketing

Remote

- Implemented and deployed a customer segmentation model with clustering algorithms and Python, enhancing targeted marketing strategies, 20% growth in engagement

AI/ML RESEARCH INTERN

Feb 2024 - June 2024

DRDO, RCI

Hyderabad, Telangana

- Calibrated 500+ Inertial Measurement Units using deep learning, improving accuracy by 40 percent.
- Designed and applied advanced algorithms to enhance IMU performance, reducing error rates by 35 percent.

AI/ML RESEARCH INTERN

May 2023 - Aug 2023

TECH MAHINDRA

Noida, UP

- Analyzed 10,000+ cyber incidents to uncover fraud patterns and enhance criminal profiling techniques.
- AI-based cyber security model for IPS and IDS. Increased threat detection rates by 30% using data modeling, TensorFlow, and Keras.

PROJECTS

ColNet: A Compact Convolutional Transformer for Colon Cancer Prediction

- Built ColNet, a Compact Convolutional Transformer framework, achieving 99.93% accuracy in automated colon cancer prediction from 10,000 endoscopy images. Runner-up at Technovate 2024; research paper presented at Amity University.

ML Pipeline for Multi-Grade Classification in Pancreatic Cancer Detection by Urinary BM

- Awarded Best Paper in Intelligent Systems at the 2nd Congress on Control, Robotics, and Mechatronics (CRM2024), achieving significant advancements in pancreatic cancer detection.
- Published in SCOPUS Indexed Springer Book Series: Smart Innovation, Systems, and Technologies.

Early Detection of Diabetic Retinopathy using Capsule Networks and Image Processing Techniques

- The optimization of the utilization of 110,000 eye images allowed for effective network retraining over 20 epochs with an accuracy rate of 95%.
- An average precision-recall score of 0.95 and a 10% decrease in false negatives.

InsightAI - A smart IoT and ML-based device model to aid visually impaired people

- Boosted user independence by 40% using Raspberry Pi and TensorFlow. Improved navigation safety with real-time object detection and voice assistance using OpenCV and Google Text-to-Speech API.

LEADERSHIP ROLES SERVED

President, Amity Artificial Intelligence Club

Sept 2023 - June 2024

Amity University

Noida, UP

Core Team Member, Google Student Developer Club

Jan 2022 - June 2024

Amity University

Noida, UP

EDUCATION

Amity School of Engineering And Technology

Noida , India

Bachelor of Engineering Technology, Minor in Business Analytics - 9.25 CGPA

Sep 2020 - June 2024

CERTIFICATIONS AND TRAINING

Feb 2024: "Python for Data Science" NPTEL course - Gold medal

Nov 2022: Intro to Tensor Flow for Deep Learning, Udemy

Aug 2022: Google Data Analytics Professional Certificate

Jun 2022: Big Data with Hadoop Effervescence, IIIT Allahabad

Council of Scientific and Industrial Research, Smart India and Kavach Hackathon: Participated and won in various hackathons, paper presentations, and competitions

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, R

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse

Libraries: pandas, NumPy, Matplotlib, TensorFlow, PyTorch, Scikit-learn, Keras, NLTK
